PROJECTS

(2023 - PRESENT)

Bookverse

Book Review Platform

- Developed a full-stack web app to explore and review books with dynamic search and trending features.
- Implemented user authentication for login, sign-up, and review submissions.
- Enhanced user experience with responsive design and interactive UI components.

ReelTime

Movie Database Platform

- Created a movie search platform with detailed movie info including ratings, release dates, and trailers.
- Integrated API calls to fetch real-time movie data efficiently.
- Designed a responsive and user-friendly interface for seamless navigation.

JumpStart

E-Commerce Platform

- Built an e-commerce website with integrated FAQ chatbot for 24/7 customer support.
- Implemented product listings, shopping cart, and checkout functionalities.
- Optimized for performance, accessibility, and cross-device compatibility.
