

NANG MYAT MARY HTUN

Web Developer

Myanmar | +959444472964 | mayyihun0@gmail.com | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Detail-oriented Web Developer with a strong foundation in modern JavaScript frameworks and backend web services. Leverages professional experience in technical troubleshooting and database management to identify performance bottlenecks and deliver seamless user experiences. Strong collaborator with a user-first mindset, eager to contribute scalable, maintainable code and agile problem-solving skills to a forward-thinking product development team.

CORE SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React, Next.js, TypeScript, Tailwind CSS
- **Backend & APIs:** Python, Django, RESTful API Integration, Web Service Workflows
- **Database Management:** PostgreSQL, MySQL, Data Querying & Troubleshooting
- **Tools & Cloud:** Git, GitHub, Microsoft Azure, Power BI, AI Workflow Automation
- **Problem Solving:** Bug Fixing, Performance Bottleneck Identification, UX Friction Reduction
- **Interpersonal:** Cross-Functional Collaboration, Excellent Communication, User-First Mindset, Strong Attention to Detail

PROJECTS

CareerLens (Final Year Project)

AI Powered Career Intelligence Platform

- **Tech Stack:** React, Tailwind CSS, Django, Python, MySQL, Google Gemini API, jSearch API
- Architected a full-stack career platform utilizing React, Tailwind CSS, and Django to evaluate resumes against automated ATS criteria and optimize application materials.
- Integrated Google Gemini API for semantic CV feedback and jSearch API to enable real-time job listing aggregation and end-to-end tracking.
- Designed relational MySQL schemas to persist user profile data, job application pipelines, and resume parsing results efficiently.

Lumina

Productivity & Habit Tracking Web Platform

- **Tech Stack:** Next.js, TypeScript, React, Node.js, PostgreSQL, Prisma ORM, Bible API
- Built a responsive web dashboard using Next.js, React, and TypeScript to surface real-time job matches and profile fit metrics.
- Developed automated ATS scrapers and backend services with FastAPI and Python to process external listing data asynchronously.
- Implemented PostgreSQL for transactional data storage and integrated the Telegram Bot API for instant notification dispatch.

EDUCATION

Bachelor of Science in Computing | University of Roehampton | London

Pearson BTEC Level 5 Higher National Diploma in Computing | Lithan Academy | Singapore

Pearson BTEC International Level 3 Foundation Diploma | Lithan Academy | Singapore
